

Meteorology Quiz: Trivia Questions and Answers

1. What does meteorology focus on?

- Rainfall Measurement
- Weather Forecasting
- Distance Measurement

2. Meteorology combines with hydrology to form the interdisciplinary field called:

- Dynamic Meteorology
- Hydrometeorology
- Maritime Meteorology

3. What are scientists who study meteorology called?

- Meteorist
- Analyzers
- Meteorologist

4. All of the following are tools used in meteorology EXCEPT:

- A rain guage
- A hammer
- A barometer

5. What is the concept of collecting data from remote weather events called?

- Maritime Meteorology
- Remote sensing
- Aviation Meteorology

6. What does boundary layer meteorology study?

- Gamma rays
- Atmospheric boundary layer
- Planet emission

7. What is the name of the study of the fluid dynamics of the atmosphere?

- Maritime meteorology
- Aviation meteorology
- Dynamic meteorology

8. The study of the impact of weather on the air traffic management is called:

- Maritime meteorology
- Hydrometeorology
- Aviation meteorology

9. All of the following are fields of the meteorology EXCEPT:

- Dynamic meteorology
- Underground meteorology
- Aviation meteorology

10. What does maritime meteorology predict?

- Fish migration
- Waves
- Possibility of sea sickness

Meteorology Quiz: Trivia Questions and Answers

Right answers

1. What does meteorology focus on?

Weather Forecasting

2. Meteorology combines with hydrology to form the interdisciplinary field called:

Hydrometeorology

3. What are scientists who study meteorology called?

Meteorologist

4. All of the following are tools used in meteorology EXCEPT:

A hammer

5. What is the concept of collecting data from remote weather events called?

Remote sensing

6. What does boundary layer meteorology study?

Atmospheric boundary layer

7. What is the name of the study of the fluid dynamics of the atmosphere?

Dynamic meteorology

8. The study of the impact of weather on the air traffic management is called:

Aviation meteorology

9. All of the following are fields of the meteorology EXCEPT:

Underground meteorology

10. What does maritime meteorology predict?

Waves
