

Nanotechnology Quiz: questions and answers

1. How are nanomaterials regulated?

- An adaption method
- Digestion
- No specific mechanism stated

2. Who first stated nanotechnology concepts?

- Richard Feynman
- Mike Stevo
- Mike Feynman

3. When were the concepts of nanotechnology discussed for the first time?

- 1978
- 1953
- 1959

4. Who was not in the group of scientists that discover fullerenes?

- Harry Kroto
- Richard Smalley
- Harry Curl

5. When were fullerenes discovered?

- 1996
- 1995

1985

6. What is the size of one nanometer?

- One billionth of a millimeter
- One billionth of a meter
- Not stated

7. Who developed scanning acoustic microscope?

- Harry Kroto
- Richard Smalley
- Calvin Quate

8. When was SMA developed?

- 1960s
- 1970s
- 1980s

9. When was the scanning tunneling microscope invented?

- 1983
- 1980
- 1981

Nanotechnology Quiz: questions and answers

Right answers

1. How are nanomaterials regulated?

No specific mechanism stated

2. Who first stated nanotechnology concepts?

Richard Feynman

3. When were the concepts of nanotechnology discussed for the first time?

1959

4. Who was not in the group of scientists that discover fullerenes?

Harry Curl

5. When were fullerenes discovered?

1985

6. What is the size of one nanometer?

One billionth of a meter

7. Who developed scanning acoustic microscope?

Calvin Quate

8. When was SMA developed?

1970s

9. When was the scanning tunneling microscope invented?

1981
