

## Vertebral Column Quiz: questions and answers

| 1. What is the vertebral column commonly known as?      |
|---|
| O A backbone  |
| O A spinal cord   |
| O A spinal canal  |
|   |
| 2. How many bones are there in the human skeleton?      |
| O 70  |
| O 80  |
| O 85  |
|   |
| 3. How many species of animals have a vertebral column? |
| O About 70,000  |
| O About 50,000  |
| O About 60,000  |
|   |
| 4. How many vertebral columns are in human vertebrae?   |
| O 33  |
| O 35  |
| O 34  |
|   |
| 5. The human vertebral column is divided into:          |
| O 4 regions   |
| O 6 regions   |
|   |

| O 5 regions  |
|--|
| 6. How many parts is typical vertebra consists of? |
| O 2  |
| O 4  |
| O 3  |
|  |
| 7. Cervical spine have                             |
| O 6 vertebrae                                      |
| O 5 vertebrae                                      |
| O 7 vertebrae                                      |
|  |
| 8. Thoracic spine have                             |
| O 13 vertebrae                                     |
| O 14 vertebrae                                     |
| O 12 vertebrae                                     |
| 9. Lumbar spine have                               |
| O 4 vertebrae                                      |
| O 6 vertebrae                                      |
| O 5 vertebrae                                      |
|  |
| 10. Sacrum have                                    |
| O 3 (fused) vertebrae                              |
| O 4 (fused) vertebrae                              |
| O 5 (fused) vertebrae                              |
|  |

## Vertebral Column Quiz: questions and answers

## Right answers

| <ol> <li>What is the vertebral column commonly known as?</li> <li>backbone</li> </ol> |
|---|
| 2. How many bones are there in the human skeleton?<br>80                              |
| 3. How many species of animals have a vertebral column?<br>About 50,000               |
| 4. How many vertebral columns are in human vertebrae? 33                              |
| 5. The human vertebral column is divided into:<br>5 regions                           |
| 6. How many parts is typical vertebra consists of?<br>2                               |
| 7. Cervical spine have<br>7 vertebrae   |
| 8. Thoracic spine have<br>12 vertebrae  |
| 9. Lumbar spine have<br>5 vertebrae   |
| 10. Sacrum have<br>5 (fused) vertebrae  |
